

BIA

Bia is a transitional type system exploring the balance between classical form, contemporary proportions, and expressive typographic contrast.

Bia is a transitional type system built for expressive and functional typography across editorial, branding, packaging, identity, and display applications. Its four contrasting classifications—Serif Low, Serif High, Sans Low, and Sans High—are unified by a shared typographic structure, allowing different visual voices to work naturally within the same family. With five weights and five widths, Bia moves from compact, restrained compositions to expansive and expressive display settings, making it suitable for headlines, logotypes, editorial layouts, brand identities, packaging, and digital experiences.

Published	2023-2026
Designed by	Dede Kurniawan

Bright young designers quickly pack six dozen boxes, mixing bold ideas with quiet details while exploring typography, rhythm, contrast, and form. Their work spans 12 projects, 48 pages, and 365 days of practice—always asking, “Can a typeface feel both precise and expressive?” It’s a careful balance of craft, clarity, and character.

Czech

Ačkoli klimšova nenapsala knih mnoho, přece zná ji ta naše četbychtivá mládež tuze dobře. Zná ji zejména z knih: Z jara do léta, Kniha báčorek, Paleček a Malenka, Z ráje, Rodinná skřínka a j., a pak z různých časopisů pro mládež, do nichž velice pilně přispívá. Její práce vesměs děti naše rády čítají, poněvadž skutečně vynikají vším, čeho se na dobré četbě žádá. Však Klimšova také pracuje s láskou, pracuje opravdově vážně a nevydá nic na světlo, co by důkladně nepodrobila soudu svému i soudu jiných. A to právě dodává jejím pracem té pravé ceny. Nuže seznámež se se životem této tiché a skromné pracovnice, seznámež se i s jejími pěknými spisy. Klimšova narodila se 7. dne měsíce prosince roku 1851. v Poličce. Otec její byl dosti zámožným a váženým měšťanem, měltě v Poličce dům a byl dlouhá léta členem obecního zastupitelstva, ba i městským radním. Při domě měli Klimšovi zahrádku. Něžná matka Bohumilčina milovala totiž velice květiny a při tom lnula také velikou láskou ku zvířatům. Byla dobrá, o vše, ale zvláště o děti své starostliva, při tom pilna, šetrna a skoro až

Polish

Od wczoraj jakiś niepokój panuje w uliczce. Stary Mendel dziwi się i częściej niż zwykle nakładakrótką łajkę patrząc w okno. Tych ludzi nie widział on tu jeszcze. Gdzie idą? Po co przystają z robotnikami, śpieszącymi do kopania fundamentów pod nowy dom niciarza Greulich'a? Skąd się tu wzięły te obszarpane wyrostki? Dlaczego patrzą tak po sieniach? Skąd mają pieniądze, że idą w pięciu do szynku? Stary Mendel kręci głową, smokcząc mały, silnie wygięty wiśniowy cybuszek. On zna tak dobrze tę uliczkę cichą. Jej fizjonomię, jej ruch, jej głosy, jej tętno. Wie, kiedy zza którego węgła wyrzyje w dzień pogodny słońce; ile dzieci przebiegnie rankiem, drepząc do ochronki, do szkoły; ile zwiędłych dziewcząt w ciemnych chustkach, z małymi blaszeczkami w ręku przejdzie po trzy, po cztery, do fabryki cygar na robotę; ile kobiet przystanie z koszami na starym, wytartym chodniku, pokazując sobie zakupione jarzyny, skarżąc się na drogość jaj, mięsa i masła; ilu wyrobników prześlapię środkiem bruku, ciężkim chodem nóg obutych w trepy, niosąc pod pachą węzełki, a w

Danish

Der var en lille havfisk af god familie, navnet husker jeg ikke, det må de lærde sige dig. Den lille fisk havde attenhundrede søskende, alle lige gamle; de kendte ikke deres fader eller moder, de måtte straks skøtte sig selv og svømme om, men det var en stor fornøjelse; vand havde de nok at drikke, hele verdenshavet, føden tænkte de ikke på, den kom nok; hver ville følge sin lyst, hver ville få sin egen historie, ja det tænkte heller ingen af dem på. Solen skinnede ned i vandet, det lyste om dem, det var så klart, det var en verden med de forunderligste skabninger, og nogle så gruelig store, med voldsomme gab, de kunne sluge de attenhundrede søskende, men det tænkte de heller ikke på, for ingen af dem var endnu blevet slugt. De små svømmede sammen, tæt op til hverandre, som sildene og makrellerne svømmer; men som de allerbedst svømmede i vandet og tænkte på ingenting, sank, med forfærdelig lyd, ovenfra, midt ned imellem dem, en lang, tung ting, der slet ikke ville holde op; længere og længere strakte den sig, og hver af småfiskene, som den ramte,

Turkish

Sadık genç, araladığı kapıyı çekince, yine birden kararan sanduka sükunu içinde, İskender Paşa, galeyansız ibadetine başladı. Artık dünyaya dair hiçbir ümidi kalmamıştı. İsteddiği yalnız bir iman selameti idi. Vâkıa korkak bir adam değildi. Ama, muhakkak bir ölümü her gün, her saat, her dakika, hatta her saniye beklemek... Onun cesaretini kırmış, sinirlerini zayıflatmıştı. Düşündükçe, ensesinde soğuk bir satırın sarıh temasını duyar gibi oluyordu. Bu sarıh temas silinirken karşısına kendi boğuk hayali gelirdi; gözleri patlamış, kavuğu bir tarafa yuvarlanmış, boynu yağlı bir kement ile sıkılmış, ayağından pabuçları çıkmış, ipek kuşağı çözülmüş, karanlık, köpüklü ağzından siyah dili sarkmış bir naaş... İskender Paşa'nın yerde sürünen ölüsü! Titrer, gözlerini oğuşturur, yine salât-ü selamlarını çekmeye başladı. Yakın akıbetinin bu uzvî hatırası o kadar bariz, o kadar kuvvetliydi ki... Çocukluğunun saf muhayyilesini süsleyen cennet bahçelerini, hûri, gılman alaylarını, Tûba ağacını, Sırat köprüsünü şimdi düşünemiyordu bile... Zihni durmuştu. Sinirleri, beyni pek yorgundu. Yemek

Vietnamese

Từ sáng hôm qua, một cảm giác bất an đã len lỏi trong con phố nhỏ. Ông Minh, người đã sống ở đây hơn bốn mươi năm, nhận ra ngay sự khác thường ấy. Ông ngồi trước hiên nhà, chậm rãi nhồi thuốc vào chiếc tẩu nhỏ, thỉnh thoảng lại ngước mắt nhìn về phía cuối đường. Những người này là ai? Ông chưa từng thấy họ ở đây. Họ đứng trước công trường, nơi những người thợ đang đào móng cho căn nhà mới của gia đình ông Lâm. Vì sao họ cứ nhìn quanh như thể đang tìm kiếm một điều gì đó? Và những cậu bé quần áo rách rưới kia từ đâu xuất hiện? Chúng nói chuyện với nhau rất khẽ, rồi năm người cùng bước vào quán rượu bên góc phố. Ông Minh khẽ cau mày. Ông hiểu con phố này quá rõ. Ông biết buổi sáng ánh nắng sẽ chiếu xuống bức tường nào trước tiên; biết có bao nhiêu đứa trẻ chạy qua trên đường đến trường; biết những người phụ nữ thường dừng lại trước hàng rau để than phiền về giá thịt, cá và gạo. Ông cũng biết tiếng guốc của những người công nhân trở về vào mỗi buổi chiều.

Maltese

Filghodu kmieni, it-toroq tal-belt kienu ghadhom kwieti u vojta. Hdejn il-pjazza l-qadima, ftit nies kienu digħa qegħdin jifthu l-hwienet tagħhom, filwaqt li d-dawl artab tax-xemx beda jidher bejn il-bini. Żagħżugh wahdu mexa bil-mod lejn il-baħar, waqt li sema' l-hoss tal-mewġ iħabbat mal-ħitan tal-port. Għalih, dak il-post kien dejjem ifakkru fit-tfulija, fil-ġranet twal tas-sajf u fil-hinijiet li kien iqatta' ma' hbiebu. Kull rokna kellha storja tagħha, u kull triq kienet iġġorr memorja li ma setgħetx tintesa. Meta wasal hdejn il-moll, waqaf għal ftit u hares lejn l-orizzont. Il-baħar kien kalm, iżda f'qalbu kien hemm hafna mistoqsijiet dwar il-futur. Huwa ftakar fi żmien meta kien għadu żgħir u kien jemmen li d-dinja kienet kbira wisq biex jifhimha. Issa, wara hafna snin, kien jaf li l-hajja ma tagħtix dejjem it-tweġibi-et li wiehed jixtieq, iżda kull esperjenza thalli warajha tagħli-ma. Qabel ma telaq, reġa' hares lejn il-baħar u tbiissem. F'dak il-mument fehem li xi memorji jibqgħu magħna għal dejjem, anki meta kollox madwarna jinbidel.

Uyƣur Yengi Yezikı

Oleyretlik bir yaz küni idi. Kechilerde yengil shamallar esip, eski derwazilar aldidiki gül-terlerning yapraqlirini asta tewritetti. Qérindashlar bazargha qarap mangatti, balilar bolsa mektepke aldirap, bir-birige yéngi künniing xewirlerini éytishti. Qasim uzun yillardin béri ózining kichik shehiride yashap, bu yerning her bir kéchisini, her bir derwazini we her bir ademini tonutti. Lékin búgün uning kónġlide bashqiche bir sezim peyda bolghan idi. U uzaqtiki tawlargha qarap, hayatning ótken künlirini esligeç, aldida héch kim bilmeydighan yéngi bir yolning barliini his qildi. Olemginliq bilen ümid uning kónġlide birge yashatti; shuning bilen u kólini asta kóksige qoyup, yéngi seherning yoruq nurigha qarap mangdi. Kün chiqishi bilen kóchilerde ademler kópiyip, her tereptekiler óz ish-lirige kirishti. Qasim bolsa bir házirliq bilen yene bir qétim artigha qaridi. Uning üchün bu kóche pəqəť yashighan yeri emes, béshidin ótken künlerning, xatirilerning we ümidlerning bir qismi idi. U zaman bilen ademning ózgiridighanliqini, lékin yaxshi niyetning haman qalidighanliqini oylap, asta mangip ketti.

Yorùbá
